

Control the Drone to Control the Threat – EnforceAir Counter-Drone C-UAS System

Tested, Selected & Trusted by the Top Tier

- Hundreds of worldwide deployments
- Tested, selected & trusted by operational units & security agencies in sensitive environments
- Protecting large-scale events & high-level government officials globally

D-Fend Solutions Counter-Drone Core Concepts for Continuity

Control

The best way to **control** the drone threat and ensure **continuity** is to **take control of the drone**

Safety

A **safe landing** or fend off of the rogue drone is the best possible outcome for **safe airspace and continuity**

Focus

Counter-drone measures must **focus on the real risk, the most dangerous drones**, and employ drone risk analysis, assessment, and prioritization

Future

The constantly changing and increasingly complex drone threat requires foreseeing the future and **always staying a drone threat ahead**

Cyber Takeover – Cyber Meets Counter-Drone

EnforceAir, our flagship counter-drone offering, is the industry-leading cyber, radio frequency (RF)-based takeover technology that provides end-to-end detection and mitigation for situational awareness and operational continuity. The autonomous system:

- Detects, locates & identifies rogue drones
- Takes control in any scenario or environment
- Neutralizes the threat by allowing you to take full control of the drone and land it safely

EnforceAir Capabilities Across the Rogue Drone Incident Lifecycle

Detect & Alert

Locate & Track

Identify

Fend-Off

Take Control & Land

Passive

Active

What We are NOT and Why – Non-Jamming, Non-Kinetic

Commerce, transportation & everyday life smoothly proceed, because D-Fend's system does not rely upon jammers or kinetic technology. Authorized drones continue functioning.

Focused on the Real Threat – The Dangerous Drones

D-Fend Solutions focuses on the real threat – dangerous, rogue drones. We cover drones that:

- Fly long distances
- Carry heavy payloads
- Can travel in heavy winds & inclement weather
- Are prevalent and accessible

A Solution for Every Scenario – Supported Environments

Military * National Security * Law Enforcement *
Airports * Borders * Ports and Harbors
* VIP Executive Protection * Maritime Operations *
Critical Infrastructure * Enterprise Business *
Events * Stadiums * Media * Prisons * Landmarks
& Government Buildings * First Responders * Local
Government * Safe City

Future-Ready – Always A Drone Threat Ahead

Continuous software updates result in an up-to-date response to new drone models & DIY radio components.

Varied Deployments for Operational Flexibility

EnforceAir provides the ultimate in operational agility & flexibility. Its core elements can be easily set up, transferred, mounted & configured within minutes.

Deployment bundle:

- **Homeland Security & Law Enforcement** - Vehicular, tactical, stationary & backpack.

Deployment options:

- **Vehicular** - mobile protection for military & civilian
- **Tactical** - tripod mounted, lightweight, portable, and easy to assemble
- **Stationary** - pole mounted, low and high-altitude installations
- **Long-Range Directional** - stationary, long-range coverage
- **Backpack** - man-portable, on-the-move
